

GR-0429  
GR-0429, G80-031  
British Columbia. Attorney General  
Attorney General correspondence  
1872-1937, 1950 2.4 m  
Microfilm (neg.) 1872-1937, 1950 16 mm 7 reels [B09318 - B09324]  
Microfilm (neg.) 1872-1937 35 mm 1 reel [B09325]

The bulk of the records in GR-0429 were acquired circa 1934; boxes 21 and 22 were transferred from the Attorney General's Department in 1960.

GR-0429 contains selected inward correspondence from 1872 to 1950, although most of the items date from 1872 to 1937. The Attorney General's Department used several numbering and filing systems during this time period; from 1872 to 1911 letters were assigned a number as they were received, and then filed in numerical order by year. From 1911 to 1917 a subject file "drawer" system was used, and thereafter correspondence was coded and filed according to the Act which applied to the issue under discussion in the correspondence.

By 1934 the B.C. Archives had acquired legal custody of a selection of the correspondence from 1872 to 1911. It is not clear whether the selection was made by the Archives or the Attorney-General's Department; the original folio listing for Boxes 1 to 18 was also created at that time. In 2005 the folio listing was expanded and revised prior to the microfilming of the records.

GR-0429 contains most of the extant inward correspondence for the Department between 1872 and 1911. A separate accession, GR-0996, also contains inward correspondence from 1883 – 1888. The bulk of inward correspondence from 1911 – 1937 may be found in GR-1323. There is no contemporary index for letters inward prior to 1911.

Although the items of correspondence from 1872 to 1911 were assigned numbers sequentially, the original order was not always maintained while the records were in the Attorney-General's Department. This means that the items are no longer in strict numerical order within a year, and items relating to a single topic may sometimes be found together, regardless of the date when they were first received.

Unfortunately, almost all of the Department's letterbooks for 1872-1917 were destroyed by fire in 1939. Some correspondence was also destroyed by flooding. As a result it is not possible to locate departmental replies to most of the correspondence in GR-0429.

Most of the inquests from this series were extracted and may now be found in GR-1327, although the covering correspondence may remain in GR-0429. Similarly, depositions and preliminary trial transcripts were separated and may be found in GR-0419.

Oversize original items remain in their original containers and files but were filmed on Reel B09325. See last page of index for container list.

# Index of subseries

Reel No(s)	Box(es)	Contents	Date(s)
B09318-B09324	1-18	Correspondence inward	1872-1911
