

GR-1786  
British Columbia  
Environment and Land Use Committee Secretariat  
Originals 1974-1981 4.0 m

This finding aid reflects the original order of these records at the time of their receipt by the B.C. Archives. The original filing system has been lost. The original boxes contained several untitled files, often covering several topics. No attempt has been made to create file titles, and these files are designated UTF in the finding aid. Other material was originally loose in boxes, and was placed in files but left untitled. These files are designated UF in this finding aid.

Box	File description
