 Hospital Insurance Service
 Hospital planning and construction records
 Originals 1949-1976 1.4 m

These files were created by the Hospital Construction and Planning Division. The division provides a consultative service to hospital boards planning new acute or extended-care hospital facilities, diagnostic and treatment centres, and additions or alterations to these buildings. These files document the process by which this occurred and also progress of the various building projects, 1948-1976. Another, smaller, series within this one, is a box of files which show the activities of hospital planning groups for Victoria area, Vancouver Island, Metropolitan Vancouver and the Comox Valley District.

Box 1 Hospital Construction Account Book, 1949-1955.
 Box 2-10 Files re construction of hospitals, 1949-1964.
 Box 11 Planning files, 1957-1971.

These files were bulky and some have been divided into 2 or more files. This is clearly marked in the finding aid.

This material was transferred from the Ministry of Health in 1981.

Box	File	Contents	Plan No.	Dates
1		Hospital Construction Account Book		1949-1955
		<u>Files re. construction of hospitals</u>		1948-1976
