 British Columbia
 Hospital Programs
 Originals 1971-1977 1.2 m

These files document the liaison and supervision activities of the Hospital Consultation and Inspection Division in dealing with private hospitals throughout the province. They consist of originals and copies of general correspondence and memoranda, complaints about the level of care and service and reports of the resulting investigations, regular review reports and recommendations, copies of incident reports relating to patients, dietetics reports and meal surveys, visit notes, other general reports, and statistics. These records are arranged alphabetically by institution.
