Records with regard to planning and construction of hospitals  
Originals 1948-1980 2.4 m

These are records of the Planning and Construction Division of Hospital Programs.

Box 1 - Physical Plant surveys for hospitals from Abbotsford-Zeballos, done by James A. Hamilton and associates in 1948. Gives a good snapshot of hospitals and hospital services available at the time in different parts of B.C. The published report based on this information, A Hospital plan of a professional-educational programme for the Province of B.C. (1949), gives only a general review of the suitability of various buildings. This report is available in GR 2650 box 3.

Boxes 1-3 - General construction files, includes correspondence relating to construction projects in general.

Boxes 4-6 - Subject files.

These files were transferred from the Ministry of Health in 1987.
