Having known Mr. Fredk
Dally & his family for
many years, I have much
pleasure in testifying
to his good abilities,
gentlemanly manners, and
conduct, and consider him
particularly accomplished
as a Dental Surgeon, having
had superior opportunities
of acquiring a knowledge
of that branch of the Profession
under eminent men at
the Philadelphia Dental
College. He has for some

time lately, since his return
home from America, has
visited me and I can
speak personally in praise
of his acquirements, as a
Dentist & feel confident
that if he is honored with
an appointment to a
public institution, he will
give satisfaction in
every way.
