I have the honor to

acknowledge a letter from you

concerning the proposed

expedition for a grant of five

hundred dollars (\$500) in

aid of a prospecting party

to prospect the Peace

River District.

I am well aware that

expeditions in the Government

business have been

proposed anything but well-

equipped and did I not feel

confident that those who

have in view the object

proposed take advantage of

this grant, had really the

good of the colony at heart,

I should be the last to

Dear Sir

I address you on this
occasion to know if you can be anything done in
the Government to give day on thousand dollars in
provisions to a party of eight men who will probably
be near heads of the Spey or east of the River
probably in some of the mountains. I am sure how
Government has been deceived in some cases where
they attempted to arrest the persons to doubt the
Guns, but in this case the parties are now who
do not care to do the thing is, I must say some
them have been in that region before and
by speaking the summer here could easily find
that would be useful. The Comtee I have sent
from Williams Creek have shown you things more
likely to do for the parties to know if you can do
anything to assist the parties who propose to go
this they has certainly will be within the
limits of the area of the same thing confer a
farm or there who wish to do the same thing

Yours truly
